AUTOMOTIVE

GENESIS

Dobplast was established in 2005. The name is the combination of the first letters of the founder's surname and the word plastic; which indicates that the main raw material used in the production of lamps and reflectors is plastic. The inspiration for the establishment of the company, came from the founder's family traditions dating back to the 1950s, related to the production of lights for passenger cars mainly of domestic use. Dobplast introduced its first patented product road cat eyes, in 2007. The time after Poland's accession to the European Union in 2004 was associated with the dynamic development of road infrastructure contributing to a significant increase in demand for road marking products. This enabled the rapid development of Dobplast and helped to provide the market with high-quality, innovative products to improve safety. Between 2013 and 2015, the first combination of tail lamps and reflectors used on trailers were introduced. Subsequently, the product range was expanded to include a whole range of products for road markings and various types of lights mounted on vehicles such as trailers, semi-trailers, bicycle racks, agricultural machinery and bicycles. Our goal for the coming years is to further develop our product range in such a direction as to meet the needs of our customers in a comprehensive manner, by providing innovative products of the highest quality based on research work carried out and the latest technologies available on the market

DESCRIPTION OF BUSINESS

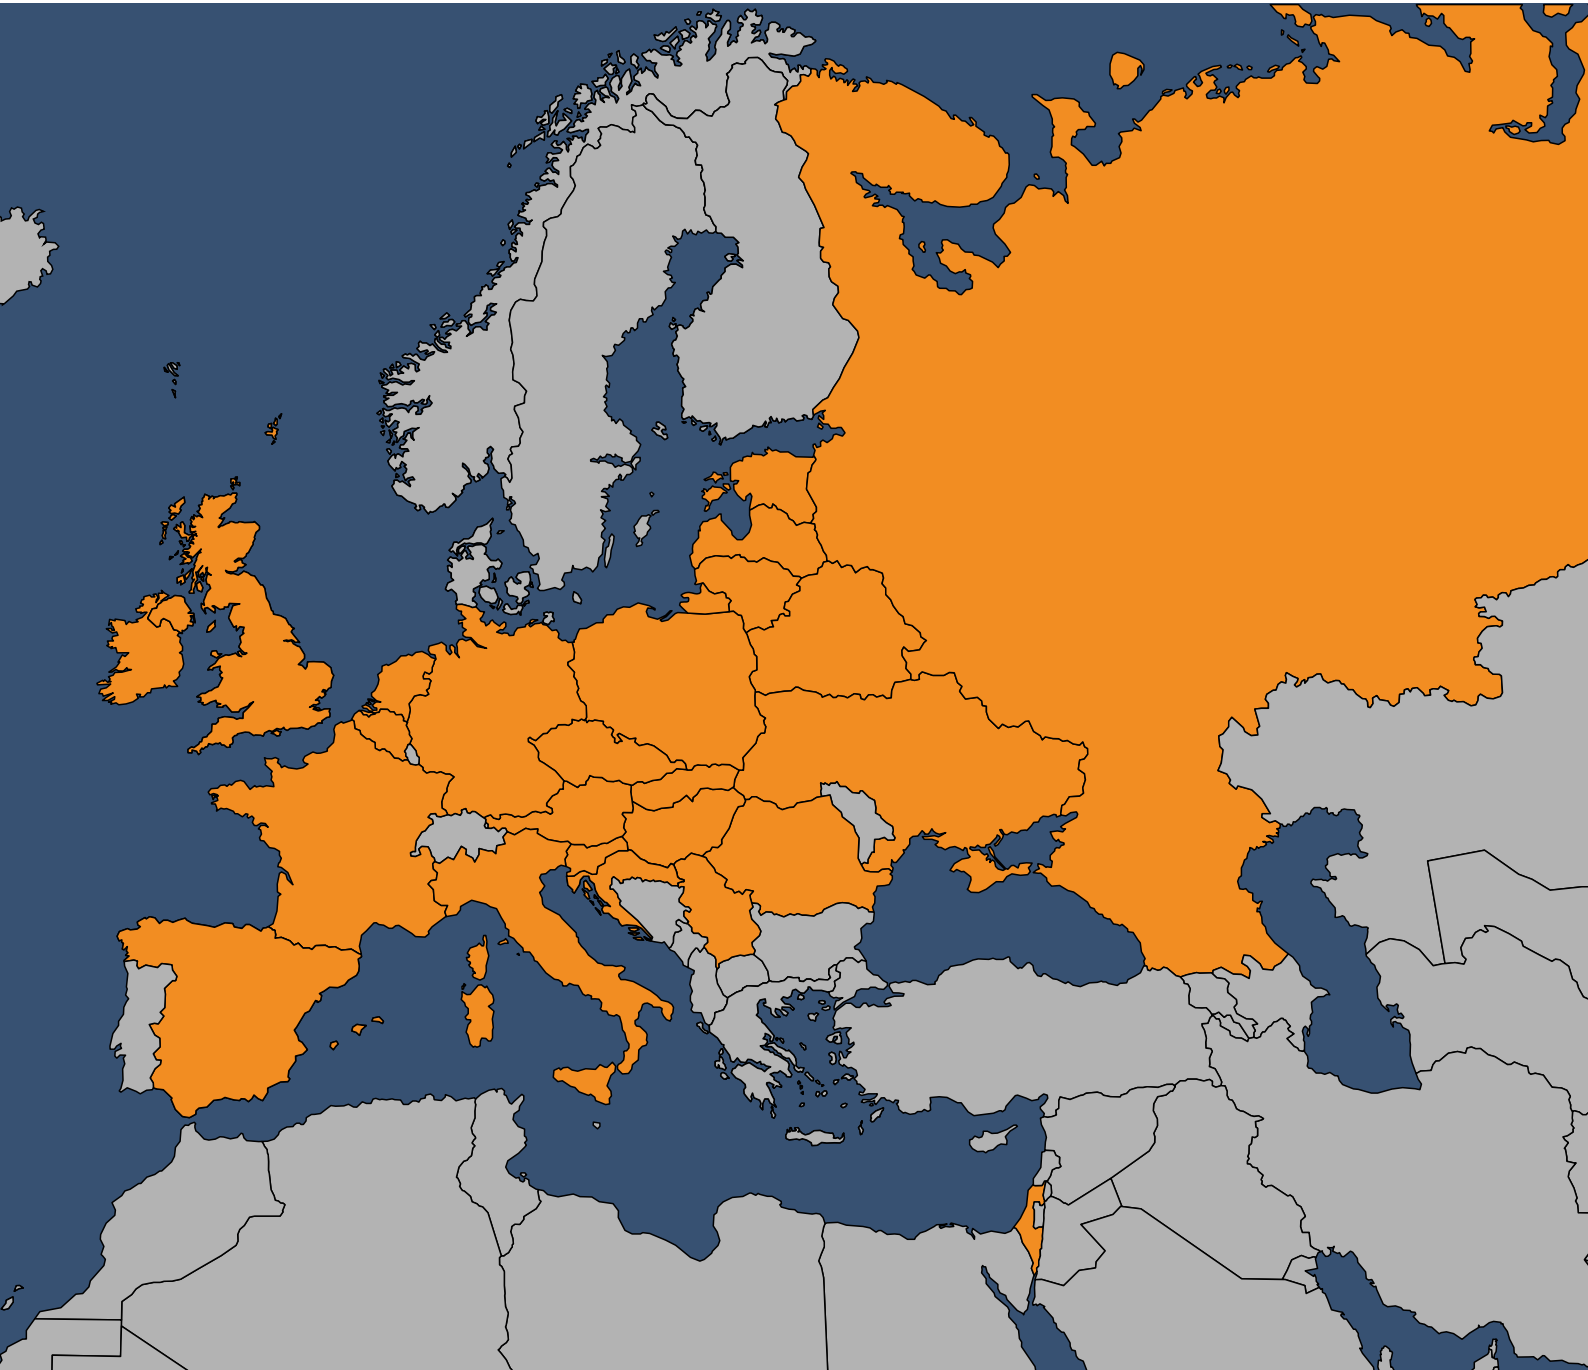

We specialize in manufacturing products for the automotive industry. In our factory, all products are manufactured based on modern technologies, using high-end raw materials. We have a quality management system in place, and our company introduces numerous innovations as a result of research and development work carried out. We sell our products to nearly twenty-five countries located around the globe. We are able to implement ambitious projects according to the highest requirements of our customers.

SERVICES

Additionally, we offer the following range of services:

- ✓ Products design
- ✓ Production of plastic products by injection moulding
- ✓ Production of metal parts by punching
- ✓ Assembling of cables and wire harnesses
- ✓ Vacuum coating
- ✓ The assembling of plastic parts
- ✓ Ultrasonic welding
- ✓ Prototyping
- ✓ Production of injection moulds
- ✓ CNC machining

REAR LAMPS

Rear multifunctional lamp DPT30 LED

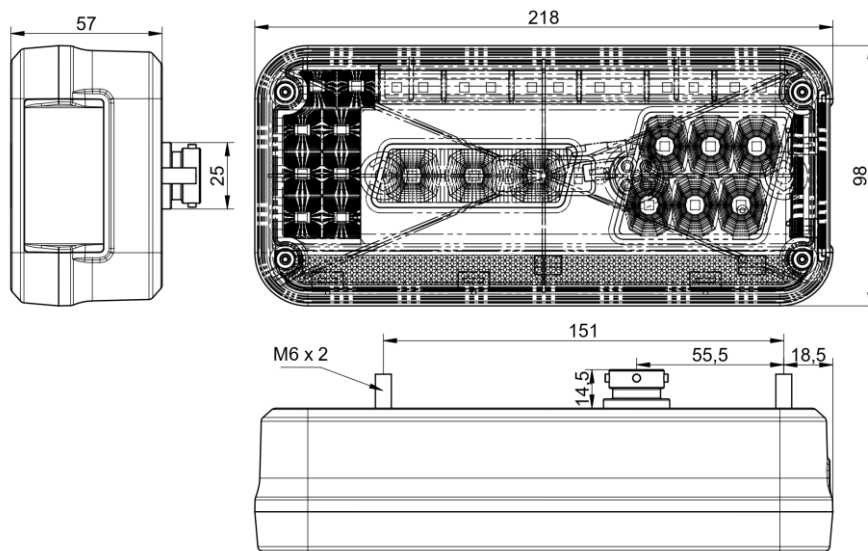

INFO:

- modern design
- supply voltage 12/24V
- replaceable lens and LED modules
- airtight waterproof IP68 LED modules
- european homologation E20
- electromagnetic compatibility (EMC)
- designed for car trailers, towbar bike racks, agriculture vehicles etc.

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light
- reversing or fog light
- reflective device

Rear multifunctional lamp

DPT30 LED

 IP68

Product code EAN code	Photo	Description
0030-1001 5905591400039		left lamp, position light, stop light, indicator, fog light, registration plate light, reflector, bayonet socket
0030-1002 5905591400046		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflector, bayonet socket
0030-1003 5905591400053		right lamp, position light, stop light, indicator, registration plate light, reflector, bayonet socket

Rear multifunctional lamp DPT35 LED

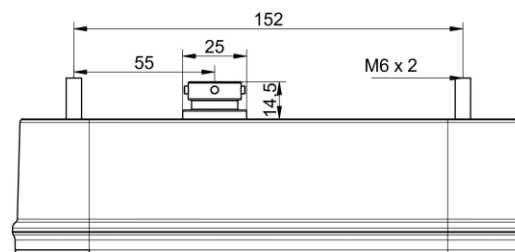

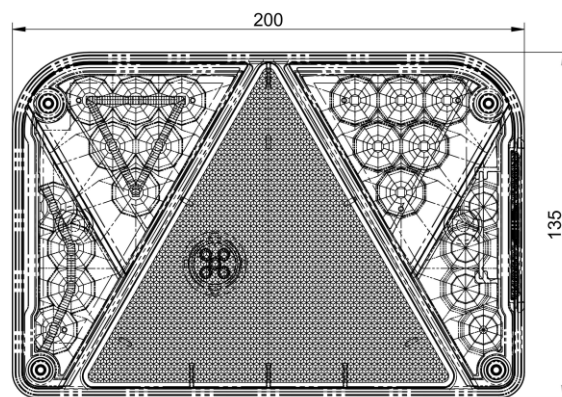

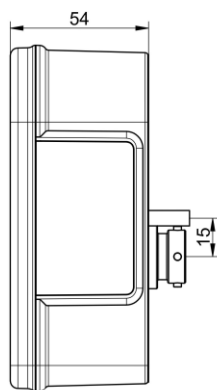

INFO:

- supply voltage 12/24V
- replaceable lens and LED modules
- airtight waterproof IP68 LED modules
- european homologation E20
- electromagnetic compatibility (EMC)

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light
- reversing or fog light
- triangular reflective device

Rear multifunctional lamp

DPT35 LED

 IP68

Product code EAN code	Photo	Description
0035-1001 5905591400008		left lamp, position light, stop light, indicator, fog light, registration plate light, reflective triangle, bayonet socket
0035-1002 5905591400015		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflective triangle, bayonet socket
0035-1003 5905591400022		right lamp, position light, stop light, indicator, registration plate light, reflective triangle, bayonet socket

Rear multifunctional lamp

DPT30

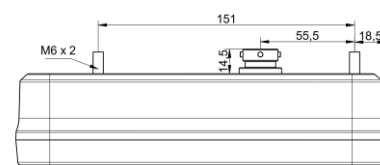

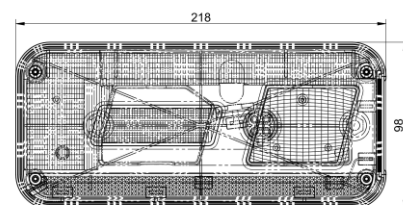

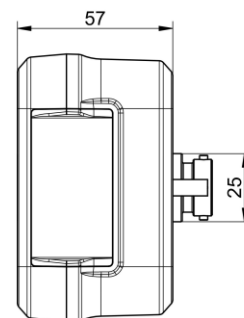

INFO:

- modern design
- supply voltage 12/24V
- european homologation E20
- designed for car trailers, towbar bike racks, agriculture vehicles etc.

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light
- reversing or fog light
- reflective device

Product code EAN code	Photo	Description
0030-0001 5905591400411		left lamp, position light, stop light, indicator, fog light, registration plate light, reflector, bayonet socket * bulbs inside
0030-0002 5905591400428		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflector, bayonet socket * bulbs inside
0030-0003 5905591400435		right lamp, position light, stop light, indicator, registration plate light, reflector, bayonet socket * bulbs inside
0030-0004 5905591400459		left lamp, position light, stop light, indicator, fog light, registration plate light, reflector, grommet
0030-0005 5905591400442		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflector, grommet

Multifunctional lamp with reflective triangle

DPT35

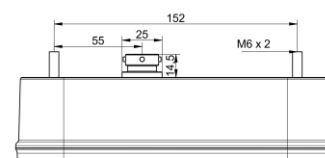

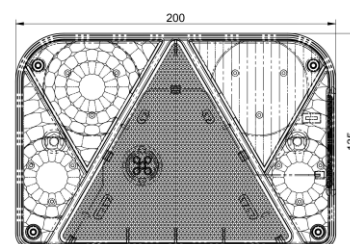

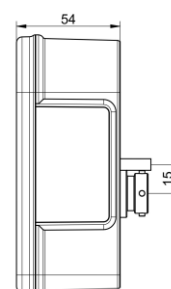

INFO:

- compact multifunctional lamp with reflective triangle
- supply voltage 12/24V
- european homologation E20

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light
- reversing or fog light
- triangular reflective device

Product code EAN code	Photo	Description
0035-0001 5905591400466		left lamp, position light, stop light, indicator, fog light, registration plate light, reflective triangle, bayonet socket 💡 - bulbs inside
0035-0002 5905591400473		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflective triangle, bayonet socket 💡 - bulbs inside
0035-0003 5905591400480		right lamp, position light, stop light, indicator, registration plate light, reflective triangle, bayonet socket 💡 - bulbs inside
0035-0004 5905591400503		left lamp, position light, stop light, indicator, fog light, registration plate light, reflective triangle, grommet
0035-0005 5905591400497		right lamp, position light, stop light, indicator, reversing light, registration plate light, reflective triangle, grommet

Rear lamp **DPT25**

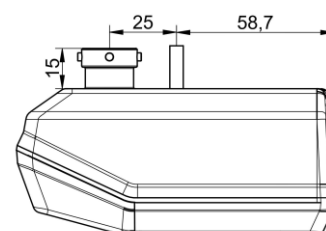

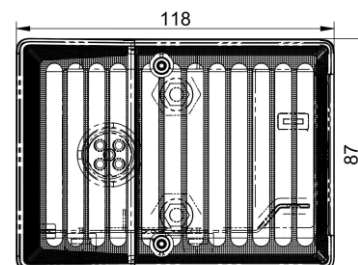

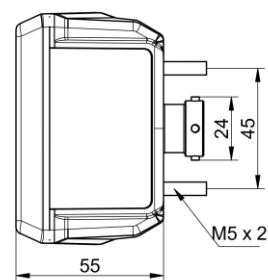

INFO:

- rear lamp designed for trailers and bicycle carriers
- 4 functions
- homologation E20

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light

Product code EAN code	Photo	Description
0025-0001 5905591400350		left / right lamp, position light, stop light, indicator, registration plate light, bayonet
0025-0101 5905591400367		left / right lamp, position light, stop light, indicator light, bayonet
0025-0004 5905591400374		left / right lamp, position light, stop light, indicator, registration plate light, grommet
0025-0104 5905591400381		left / right lamp, position light, stop light, indicator, grommet

Rear lamp **DPT10**

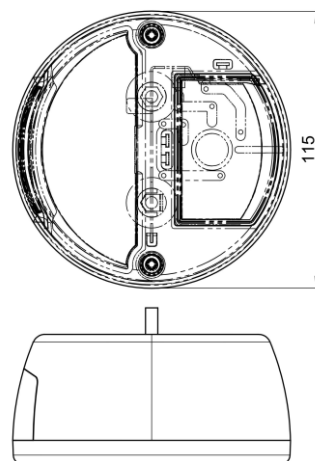

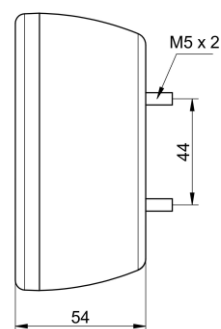

INFO:

- rear lamp designed for trailers or bicycle carriers
- 4 functions
- homologation E20

FUNCTIONS:

- stop light
- position light
- indicator
- number plate light

Product code EAN code	Photo	Description
0010-0004 5905591400398		left / right lamp, position light, stop light, indicator, registration plate light, grommet
0010-0104 5905591400404		left / right lamp, position light, stop light, indicator, grommet

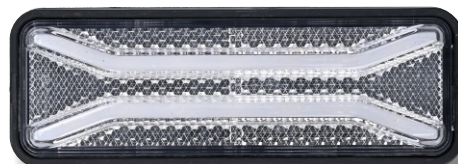

CLEARANCE LAMPS

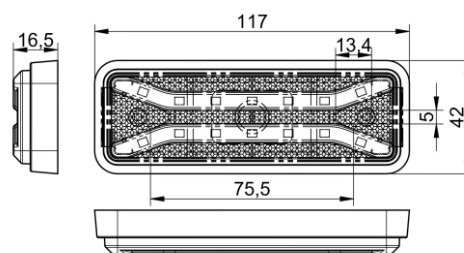

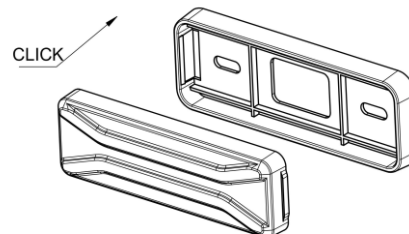

Clearance lamp

DPT105 LED

INFO:

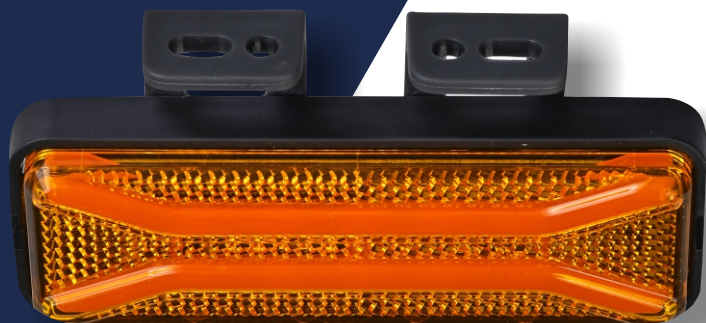

- designed to indicate the size of trailers (front, side, rear)
- supply voltage 12/24V
- waterproof IP68
- with reflector
- compatible with various types of brackets (also fluorescent)
- low power consumption
- electromagnetic compatibility (EMC)
- homologation E20

Product code EAN code	Photo	Description
0105-1051 5905591400831		clearance lamp LED, white, cable 0,5m
0105-1052 5905591400824		side-marker lamp LED, yellow, cable 0,5m
0105-1053 5905591400848		clearance lamp LED, red, cable 0,5m

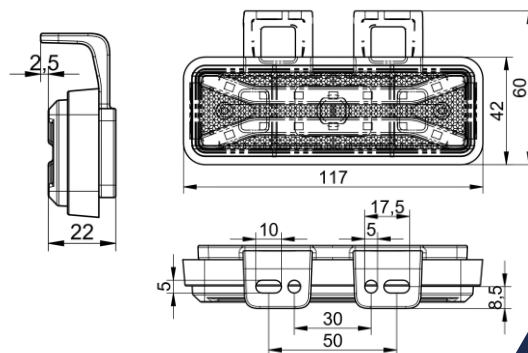

Clearance lamp with C-bracket

DPT105 LED

INFO:

- designed to indicate the size of trailers (front, side, rear)
- supply voltage 12/24V
- waterproof IP68
- with reflector
- compatible with various types of brackets (also fluorescent)
- low power consumption
- electromagnetic compatibility (EMC)
- homologation E20

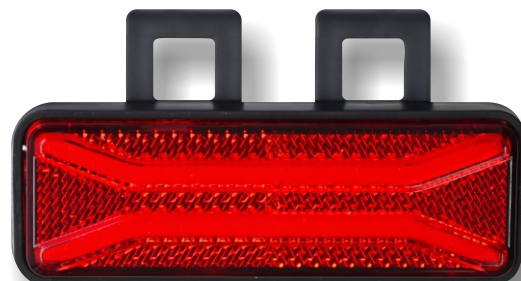

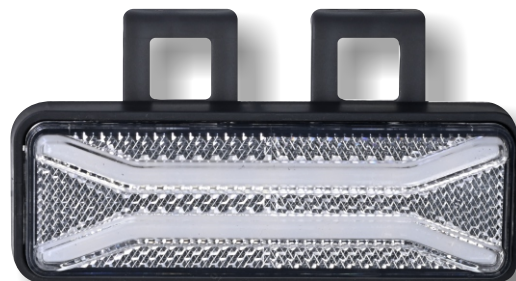

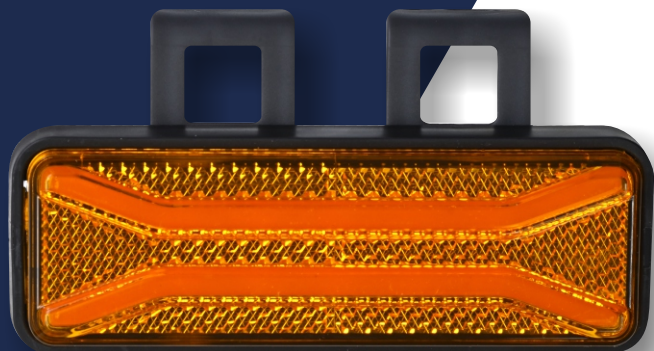

Product code EAN code	Photo	Description
0105-1051-03C 5905591400855		clearance lamp LED, white, C-bracket, cable 0,5m
0105-1052-03C 5905591400862		side-marker lamp LED, yellow, C-bracket, cable 0,5m
0105-1053-03C 5905591400879		clearance lamp LED, red, C-bracket, cable 0,5m

Photoluminescent
bracket

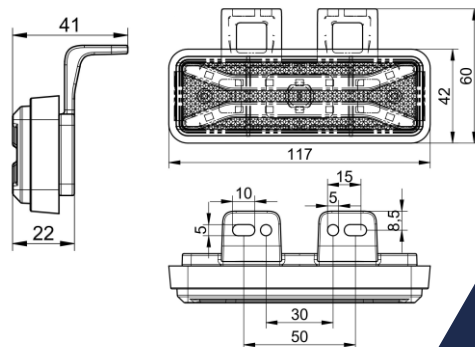

Clearance lamp with Z-bracket

DPT105 LED

INFO:

- designed to indicate the size of trailers (front, side, rear)
- supply voltage 12/24V
- waterproof IP68
- with reflector
- compatible with various types of brackets (also fluorescent)
- low power consumption
- electromagnetic compatibility (EMC)
- homologation E20

Product code EAN code	Photo	Description
0105-1051-03Z 5905591400893		clearance lamp LED, white, Z-bracket, cable 0,5m
0105-1052-03Z 5905591400909		side-marker lamp LED, yellow, Z-bracket, cable 0,5m
0105-1053-03Z 5905591400886		clearance lamp LED, red, Z-bracket, cable 0,5m

Photoluminescent
bracket

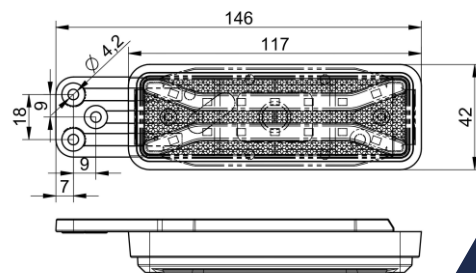

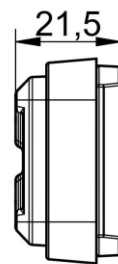

Clearance lamp with long bracket

DPT105 LED

INFO:

- designed to indicate the size of trailers (front, side, rear)
- supply voltage 12/24V
- waterproof IP68
- with reflector
- compatible with various types of brackets (also fluorescent)
- low power consumption
- electromagnetic compatibility (EMC)
- homologation E20

Product code EAN code	Photo	Description
0105-1051-02 5905591400923		clearance lamp LED, white, long bracket, cable 0,5m
0105-1052-02 5905591400916		side-marker lamp LED, yellow, long bracket, cable 0,5m
0105-1053-02 5905591400930		clearance lamp LED, red, long bracket, cable 0,5m

Photoluminescent
bracket

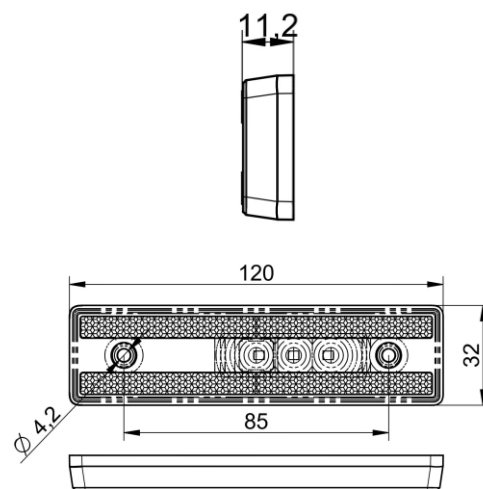

Clearance lamp

DPT100 LED

INFO:

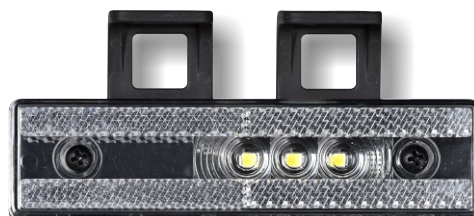

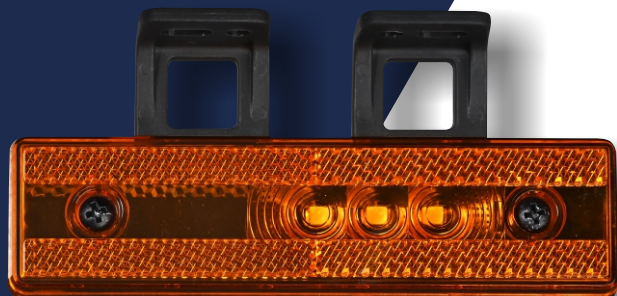

- designed to indicate the size of trailers (front, side, rear)
- supply voltage 12/24V
- waterproof IP68
- with reflector
- compatible with various types of brackets (also fluorescent)
- low power consumption
- electromagnetic compatibility (EMC)
- homologation E20

Product code EAN code	Photo	Description
0100-1051 5905591400794		clearance lamp LED, white, cable 0,5m
